PROFILE

Graphic designer specializing in branding and social/e-commerce creative, with hands-on experience designing for social platforms and supporting digital marketing at Algebra Technologies. Comfortable moving from concept to final asset across Photoshop, Illustrator, Figma, and Canva, with a focus on visual consistency and fast turnaround on client and campaign work.

SKILLS

Design Software: Adobe Photoshop, Adobe Illustrator, Figma, Canva

Design Skills: Branding & Identity, Logo Design, Social Media Creative, Web Design, Layout & Typography

Working Skills: Problem-Solving, Client Communication, Deadline Management, Team Collaboration

WORK EXPERIENCE

Graphic Designer & Digital Marketer — Algebra Technologies

- Designed social media and print assets, maintaining consistent branding, typography, and layout across all deliverables.
- Translated marketing briefs into visual creative, working directly with the team to turn ideas into finished designs.
- Managed the company Facebook page, publishing content and tracking post analytics to guide what was posted next — grew page views to 54,579 in 28 days, a 1,760% increase.

Graphic Designer — Personal Facebook Page (Self-Managed)

- Independently run a personal Facebook page as an ongoing design practice, publishing original branding and social creative: facebook.com/profile.php?id=61594328972551
- Handle every stage solo — concept, design, and posting — to build a live, public body of work.

FEATURED PROJECTS

Branding — Conelo Ice Cream Company

- Developed brand identity work and pressure-tested it for consistency across applications.
- Researched the target audience to inform design direction.
- Evaluated success by tracking how the audience engaged with the finished brand.

Team Branding Project — Ivy Beauty (One-Week Deliverable)

- Collaborated with a design team under a one-week deadline, assessing teamwork and workflow along the way.
- Synthesized multiple team members' ideas into a single, cohesive brand concept.
